

# PROJECT INFORMATION SHEET

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG

## C-GLFER-Underwood Creek, Wauwatosa, WI

### Description

The Underwood Creek sub-watershed consists of approximately 20 square miles in Wauwatosa, Milwaukee County, Wisconsin. This project lies on the border of the Milwaukee Estuary Area of Concern at the confluence of Underwood Creek and the Menomonee River. The project is the removal of approx. 4,000 linear feet (lf) of concrete channel along the lower end of Underwood Creek, located along the western edge of the Milwaukee County Grounds area in the City of Wauwatosa, Wisconsin. The project begins where Underwood Creek flows under the Canadian-Pacific Railroad crossing and extends downstream approximately 4,000 lf to a point near the confluence of Underwood Creek and the Menomonee River. Restoration efforts will restore the area's aquatic ecosystem habitat to a more natural setting through the addition of natural stream features (meanders, shelter areas, and deep riffle pool complexes).

### Congressional Interest

Sensenbrenner (WI-5), Moore (WI-4); Senator Johnson (WI), Senator Baldwin (WI)

### Location Map & Picture

### Non-Federal Project Sponsor

Milwaukee Metropolitan Sewerage District (MMSD)

### Project Authority

Section 506, Water Resources Development Act of 2000, as amended – Great Lakes Fishery Ecosystem Restoration (GLFER).

<b>Funding</b>	<b>Total</b>	<b>Federal</b>	<b>Non-Federal</b>
